A new CT scanner would mean...

Our current CT scanner is 10 years old and nearing the end of life. The improved features of a new CT scanner would allow us to do so much more.

- It's quicker
- It's more advanced
- It's safer
- It's local

Additional clinic rooms would mean...

As we now expect 1 in 2 people to be diagnosed with cancer in their lifetime, there is a need for more space within our cancer centre so that we can provide the best possible care to our patients.

- More capacity
- Better flexibility
- Improved patient experience.
